

REMARKS

Applicant has provided an Abstract on a separate sheet containing an amended version of the Abstract appearing on the 1st page of the corresponding International Patent Publication No. WO2005/104608A1.

While Applicant acknowledges that it is preferable to include Section Headings in the specification, this is not a requirement. As such, Applicant prefers not to include such Section Headings.

The claims have been amended for clarity. Applicant asserts that these changes to the claims are formal in nature only and do not affect the scope of the claims. Applicant acknowledges that the Examiner has allowed claims 1-9.

Applicant believes that this application, containing claims 1-9, is now in condition for allowance and such action is respectfully requested.

Respectfully submitted,

by /Edward W. Goodman/
